RENO WASHOE COUNTY, NEVADA, WEDNESDAY, NOVEMBER 16, 1881.

NO. 40.

A Row Among Female Minstrels.

Chicago Tribune.

ATLANTA, Georgia, November 3.—At a late hour last night, as the Reno Sentay female minstrels were boarding a train at the depot for the purpose of leaving for Columbus, Harry Woods and wife, members of the company, had a fight in the car. Other members interfered as peace-makers, and were at once set upon by Woods and wife, who seemed to want a fracas all to themselves. The fight became general, and amid blows flying in every direction and promiscuous pulling of hair, the police were called in. Upon their arrival two of them were set upon by half a dozen members of the company. To carry their point the police were forced to use their clubs. Two of their members were pretty badly beaten about the head. William Buckley, Joseph W. Ross, Harry Woods and W. H. Chase were arrested and a Police Court Judge imposed a fine of \$33 and costs upon each.

Odell's Eightieth Bear.

Troy Times.
Sunday night John Costello of Hadley, Saratoga county, was awakened by a noise as if some one knocking at his door, whereupon he got up and opened the door, when he was confronted by a huge black bear who stood upright on his hind legs and seemed inclined to give him a friendly hug. John closed the door, gave his only firearm, a small shotgun, to a lad, and seizing an axe he started out. The bear fled after the onslaught and hid in the hollow trunk of a tree. Costello secured the assistance of Fremont Odell, the veteran bear hunter of Seiadaga. The three with Odell's famous bear dog and unerring rifle, soon brought bear who he could be seen by Odell, when one shot through the heart settled his career. He was found to weigh two hundred pounds. This makes eighty bears which Odell has killed since he reached in this town.

Dynamite for a School Plaything.

Salem County Progress.

A teacher in the public school at Centralia, Mo., confiscated a small box which a pupil was playing with in school hours, and thinking it contained chewing gum, tried to break it open with a hammer. It was a dynamite torpedo of the kind used on a railroad track as a danger signal, and a large part of it was dug out of the lady's cheek.

WEDNESDAY, NOVEMBER 16, 1881

THE HERALD ON NEVADA.

The New York, *Herald* of Monday last has an editorial on the question, "Is Dakota fit for a new State?" The claims of Dakota are passed upon favorably by the *Herald*, after which it says:

Some of our recent States, like Kansas, Nebraska, California and Oregon, have justified the wisdom of Congress in erecting them into sovereign commonwealths. Others have not done so. Nevada, a poor, barren, silver-streaked region, skirting the sides of bleak mountains, a country of mining camps whose inhabitants are nomadic prospectors for silver and gold, regards State organization as so much of a burden that there is a strong opinion in favor of it being annexed to California or Utah.

The State of California shortly after its admission might have been called a gold-streaked region, with equal propriety. The resources of the State which founded her present prosperity were not understood or appreciated. It is precisely the same with Nevada. An unexampled prosperity in the early years prevented the consideration of anything less than a silver mine. We are just beginning to study what we had neglected. The land which the prospector would not claim is now known to be strong and fertile for the production of crops, and the day is now coming, with increased railroad facilities, when even the alkali plains will find their way east, in the form of fertilizers, to rejuvenate some of the worn-out eastern States.

There is no public opinion in Nevada, strong or weak, that seeks annexation to any other State.

STATE FINANCE.

The Reno *Gazette*, which is generally disposed to treat State and National affairs fairly, and give credit where it is due and censure where it is deserved, is inclined to attribute the present stress in State finances to a Democratic Legislature and Democratic officers in charge of school funds. Will the *Gazette* explain its meaning?

The above question comes from the "Silver State." Further on in its article that paper says:

Last Winter the Senate was Republican and the Assembly Democratic, so that one party is just as much to blame as the other for the legislation of that session.

The financial policy which we object to, properly originated last Winter and we are willing to accept the above statement as to the blame. We do not believe it wise to make a political question out of this matter of State finances.

EDITORIAL NOTES.

The S. F. Daily *Report* says: "The official short hand reporter who reported the Scoville murder trial at Reno wants \$915 for his services, and the people of Washoe county, being unused to official short hand reporter's charges, think \$915 an overcharge; but the bill is very reasonable."

Who told the reporter that we are not used to official charges, and why does it say the charge is very reasonable?

Carson Tribune: Surveyor-General Hatch comes out with a two column article in the Reno *Gazette*, explanatory of the N. & O. R. R. business. Better let the business remain in *status quo*.

The trustees of the fire department did the sensible thing Monday night in having the town patrolled. An ounce of prevention is worth two or three fire departments.

We should think that Mrs. George Scoville, nee Guiteau, would object to her estimable husband proving the entire Guiteau family insane.

TELEGRAPHIC BREVITIES.

C. A. Olafin, shoe manufacturers at Hopkinton, Mass., has failed. Liabilities from \$50,000 to \$100,000.

The American Bible Society has issued a reply to the recently published charges against the Connecticut Bible Society, declaring them false.

The amount subscribed for the Garfield memorial professorship at Williams College is \$17,740. It is hoped to make the total \$50,000 at least.

The Local Branch Land League at Stafford, England, has enjoined Irish voters to support the Conservative candidate on the Parliamentary election.

Secretary Blaine, principal witness for the Government to prove the shooting of President Garfield by Guiteau, was notified to appear in Court to-day.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

"Mr. Speaker." WASHINGTON, November 16.

The canvas for Speaker of the House is becoming lively and interesting. Of the candidates Keifer, Hisscock, Dunne, Burrows and Garrison are here. Orth, Reed and Robinson, of Massachusetts, will be here in a few days. Keifer has established his headquarters at the Elbitt House, Hisscock at the Arlington, Dunnell at the National, and the others have not yet opened their headquarters. General Keifer's friends are very hopeful. They say Keifer has the united and cordial support of the Ohio delegation, and while the fight will be of a sectional nature, west against east, Keifer will get votes from Pennsylvania, New Jersey, and several from New England, as well as several from the South. Keifer's friends believe he has now more positive support than any other candidate.

There is a prospect of an abundance of candidates for the subordinate positions of the House. The latest addition is John Damson, of California, for Sergeant-at-Arms. He was Librarian of the Senate prior to the Democratic organization of that body. Edward M. Johnson, of New York, late Clerk of the State Senate, Edward McPherson, and ex-Congressman Rainey, are among the candidates for Chief Clerk. It is quite probable, however, that the election of speaker will largely influence the disposition of the place. If the speakership goes west, then an eastern man will be made Clerk, and vice versa.

Washington News.

WASHINGTON, November 16. A Youngstown (Ohio) special says:

Jesse Baldwin, of Boardman township, five miles south of this city, the lunatic who created a sensation by appearing with a carpet-bag at the Treasury Department, Washington, refusing a check and demanding gold for \$17,000 worth of bonds, was robbed this morning at 3 o'clock. He kept his money in an old-fashioned safe, under the stairs in the hallway of his residence. The party of burglars numbered five.

Washington News.

WASHINGTON, November 16. There is a report that President Arthur has determined upon his cabinet slate. That Lincoln will retire by his own request and Emory Storrs will be Attorney-General. That ex-Senator Howe will be Secretary of the Interior. Chauncey L. Filley of Missouri, Postmaster-General; General Longstreet, or some other Southerner, Secretary of the Navy; and rumor does not fill the State and War Departments. The name of Frelinghuysen has been dropped from among those mentioned for cabinet positions, since it was ascertained he was offered the Attorney-Generalship. Some who profess to be well posted say Howe is no longer considered by the President, and that ex-Senator Chaffee of Colorado will be the next Secretary of the Interior. There is reason to believe, too, that Sargent is no longer thought of. The Pacific coast has only four Republican votes in Congress. California and Nevada went Democratic last year, and Oregon is very close, hence, it is said, the claims of that section for Cabinet representation have been passed.

Report on Indian Affairs.

WASHINGTON, November 16. There are now in the States and Territories west of the Mississippi river 102 reservations, great and small, on which are located 224,000 Indians. If all the Indians west of the Mississippi were gathered up on four or five reservations our Indian affairs could be managed with greater economy to the Government and greater benefit to the Indians. I recommend that Congress be asked to create a commission of three or four prominent citizens to visit during the next year the reservations west of the Mississippi river for the purpose of recommending to Congress, if they deem it wise, a concentration of the Indians on four or five reservations, to be selected in different parts of the west, on which different tribes shall be located, and if this shall, in the judgment of the commission, not be wise, then to recommend the concentration of existing small agencies where that can be properly done and a reduction of the area of others to the dimensions proportionate to the number of Indians now located thereon.

Treasury Statement.

WASHINGTON, November 16. At the close of business to-day the amount of United States bonds received for redemption under the 100th call aggregated \$9,999,950. From May 19th to June 30th last, there were \$23,800,000 worth of 5 per cent bonds received for redemption and continuation at 3 1/2 per cent. This is the largest amount of bonds ever handled in such a brief period by the United States Government.

A Generous Giver.

HARTFORD, Conn., Nov. 16. By the will of Chas. H. Northam, Trinity College receives \$125,000; Hartford Hospital, \$6,000; Christ's Episcopal Church, \$10,000; \$30,000 was given to erect a chapel at Cedar Hill Cemetery; and the remainder of the estate, about \$600,000, was distributed among the heirs.

The Tariff Convention.

CHICAGO, November 16. The tariff convention effected permanent organization yesterday afternoon by electing Hon. Wm. McKinley

of Ohio President and a long list of Vice-Presidents, among whom were Hon. W. D. Kelley, Pennsylvania; Hon. J. R. Hawley, Connecticut; Senator Sanders, Nebraska; and Senator Jones of Nevada.

On taking the Chair Mr. McKinley said among other things that he was in favor of protection for the sake of protection.

A committee was appointed on Resolutions. Mr. Adams, of Cleveland, offered a series of resolutions in favor of building up our merchant marine on the policy that had been used with success by England and other European governments. Hinman, of Milwaukee, wanted the Committee on Resolutions to commemorate the services of President Garfield in the cause of protection. Mr. Dore, of Chicago, demanded that all Internal Revenue taxes should be reduced, and all Revenue taxes, except those on spirits, tobacco, fermented liquors, and the circulation of national banks, should be abolished. Ex-Congressman Grinnell, of Iowa, offered an inquiry as to whether there was a combination in the Bessemer patent, to reasonably enhance the price of rails and burden the agricultural interests of the country.

The Carpet-Bag Crank Robbed.

CHICAGO, November 16. A Youngstown (Ohio) special says:

Jesse Baldwin, of Boardman township, five miles south of this city, the lunatic who created a sensation by appearing with a carpet-bag at the Treasury Department, Washington, refusing a check and demanding gold for \$17,000 worth of bonds, was robbed this morning at 3 o'clock. He kept his money in an old-fashioned safe, under the stairs in the hallway of his residence. The party of burglars numbered five.

Washington News.

WASHINGTON, November 16. James Keene said this morning to a reporter of an evening paper that he arrived October 27th. Letters from the Abyssinian monarch authorize him to conclude a treaty of peace with Egypt. He says he will come to London in January and then go to Cairo. He is persuaded that a lasting peace can only be made under the auspices of the British government.

The Jewish Question in Turkey.

CONSTANTINOPLE, November 16. Gerhard Kohlitz writes the anti-Slavery Society from Vienna that he

Arthur has determined upon a reporter of an evening paper that he arrived October 27th. Letters from the Abyssinian monarch authorize him to conclude a treaty of peace with Egypt. He says he will come to London in January and then go to Cairo. He is persuaded that a lasting peace can only be made under the auspices of the British government.

The Assassin's Trial.

WASHINGTON, November 16. The back entrance to the Criminal Court-room was opened about 9:30 this morning, and almost immediately about fifty ladies were ushered in by the Deputy Marshal and given seats. A few minutes before 10 o'clock the jurors who had been accepted entered the room and took seats. Before 10 o'clock the court-room was filled to overflowing, the audience being very respectable.

During the calling of names of jurors the prisoner was brought in. His appearance was wild and excited. He tossed his hat up on the desk before him, and, turning toward his brother-in-law, Scoville, hurriedly whispered something to him in an extremely excited manner.

Two talesmen were excused, after which a laborer named Thomas declared he had neither expressed nor formed an opinion; cannot read and had never held any conversation whatever on the subject. Scoville remarked that this man was about the kind of juror the law contemplated, but the defense did not want them. He therefore challenged Thomas peremptorily.

Wm. K. Brown, commission merchant, being closely questioned by Scoville, and no objection being advanced by the Government, was accepted, making the tenth. During the examination of talesmen a statement was prepared by Guitau, copied by his brother and given to the press. It recites that he is on trial for life, has been a lawyer, and appeals to the legal profession for aid. He says his defense was published in the *Herald* of October 6th.

Death From Cyanide of Potassium.

SANTA CRUZ, November 15. Early this morning Catherine Glenn, wife of W. H. Glenn, a laundryman, died suddenly; it is supposed from a dose of cyanide of potassium, but whether taken with suicidal intent is not stated.

The Debris Suits on Trial.

SACRAMENTO, November 15.

The first of the mining debris suits,

to-wit, the People vs. the Gold Run Water and Mining Company, began

in the Superior Court of this county to-day. Hon. Jackson Temple is presiding. The trial will proceed with

out either side asking for further delay.

Another Mining Co.

SAN FRANCISCO, November 16.

The Monumental Tunnel Mining Co. has been incorporated with a capital stock of \$10,000,000, to operate in

Eureka county, Nevada. Directors—

L. L. Robinson, W. S. Wood, W. M. Stewart, T. N. Robinson and Henry Pichoir.

FOREIGN.

That Irish Outrage.

DUBLIN, November 16.

Following are the particulars of the attack on Farmer Galvin, at Castle Island, Kerry county, Saturday night:

Shortly after 8 o'clock five disguised men entered the victim's house and found Galvin, his wife, his mother and two servants at home. The visitors were armed with muzzle-loading guns and had white handkerchiefs tied across their faces. One tall fellow advanced into the room and asked Galvin if he had paid his rent. Galvin replied in the affirmative, adding that his neighbors had done the same.

The leader then asked him coolly, would he prefer to have his ears cut off or be shot. Galvin replied that he had only one life, and would prefer death to mutilation. The unfortunate man was then directed to kneel on the floor. The leader cried: "Take aim, fire! Shoot him about the legs." Five shots were fired, and three bullets lodged in Galvin's thigh. He fell on his face, and several of the attacking party began beating him with the butts of their guns. His mother threw herself upon her son to save him. One gun was broken by the heavy blows.

Gambetta's Ideas.

PARIS, November 16.

Gambetta in his speech to-day said: Universal suffrage has for the third time since 1875 signified a wish to strengthen the Republic, and surround it with Democratic institutions. We have no other programme than what France herself has demanded, namely, constitutional and united government, exempt from all party considerations, imposed by dissension and weakness, ever ready to render to representatives of the nation an account of its acts, and capable of imposing on all degrees of public official respect, obedience and work.

The Government relies on finding a majority which will afford it frank support in both chambers, and on a disciplined public service, with the view of securing reforms.

The Government has testified to its desire to be constituted by constitutional laws one of the essential powers of the State in more complete harmony with the Democratic nature of our society.

They should seek, without impairing the defensive power of France, the best means of reducing the land and taxes, endeavor to relieve the financial burdens upon agriculture, and fix by treaties an economic regime for the various industries.

butts of their guns. His mother threw herself upon her son to save him. One gun was broken by the heavy blows.

TO ATTORNEYS.

All advertising, whether legal or commercial, will hereafter be run in the DAILY GAZETTE for \$2 50 per square per month; and in the WEEKLY for \$1 per square per month. This includes Sheriff's sales, summons, notices, etc., many of which are legal if put in the WEEKLY.

JOINTINGS.

Where is E. Watmore? New goods of all descriptions at Allen's.

Ten dollars reward for a lost horse, see ad.

Alvin Joslin, "by gosh" at the theater to-night.

E. Block is Captain at Charlie Becker's old place.

The train was about two hours late again this morning.

The weather prophets will please emerge. They will be needed.

Nash's Bazaar is to have the boss Christmas boom. Look out for it.

Nadon & Beauchaine have dissolved partnership, Felix Beauchaine retiring.

Charlie Becker has sold his saloon and gone to California for his health.

See Allen's new stock of photograph and autograph albums, beautiful pictures, cards and envelopes.

The Garfield Portrait Fund is mentioned favorably in the Sentinel and Eureka is asked to subscribe.

Passengers who came over the mountains this morning, report a heavy snow storm in the Sierras.

The Methodist church social which was to have been held this evening, has been postponed until Tuesday evening next.

Allen is to have a very large assortment of toys, books and everything else demanded for the holidays at San Francisco prices.

George Becker's new Pacific Beer is still growing in popularity. There is now not the least use of sending your money away from home to buy beer.

St. Jacobs Oil, Warner's Safe Kidney and Liver Cure, King's Discovery and all the other popular patent medicines of the day can always be had at Queen's Drug store.

Ed. Fowler, of Wadsworth, has just been separated from a tape worm which was twenty feet and nine inches in length. They had been close friends for a long time.

Meat Market.

Beef is firm at San Francisco quotations, with an advancing tendency. Mutton is unchanged, with a moderate supply. Hogs are arriving slowly and prices given are firmly maintained. Following are rates for whole carcasses from butchers to dealers:

Beef—Prime, 5 1/2@7 1/2; medium grades, 4 1/2 to 5 1/2; inferior, 4@4 1/2

Veal—Large calves, 7 1/2; small ones, 7 1/2@8 1/2 lb.

Mutton—Wethers are quotable at 4 1/2@5c, and ewes 4@4 1/2@5 lb.

Lamb—Spring lamb, 5 1/2@6 1/2@7 lb.

Pork—Live hogs, 5 1/2@6 1/2@7 1/2 for soft; dressed 8 1/2@8 1/2@9 lb.

Northern Notes.

The citizens of Susanville hope the present N. & O. Company will succeed, because of the route chosen.

Work has been suspended on the Eagle Lake tunnel, pending the completion of necessary surveys on the grade. The workmen are completing the boarding house and accommodations for winter.

The weather about the lake is cool enough to satisfy that old Arctic explorer and Polar bear hunter, Major Edward L. Bridges, and so it is probably cold enough for anybody.

Artesian Water.

It may interest as well as encourage our Artesian Well Company, says the Silver State, to learn that an artesian well recently sunk on the ranch of Page and Morton, four miles west of Tular City, California, flows 800,000 gallons of water every twenty-four hours. This water, which rises six feet above the surface, was obtained at a depth of 830 feet. It is estimated that this well furnishes sufficient water to irrigate a section of land.

HIGHWAY BURBERRY.

A DECAYING LAND-MARK.

A Fort that was Famous During the War.

On Monday night, between 12 and 1 o'clock the stage from Hawthorne to Columbus was robbed at a point about three-fourths of a mile from Belleville. Dr. F. R. Waggoner, of Reno, was one of the passengers. The other travelers were Mr. Brooks, a miner near Belleville, and two members of the Belleville demi monde. The stage was going forward smoothly when all at once a shout was heard:

"Halt, you a—of b—e." At the same time the driver was pulling up, one of the three highwaymen fired a shot into the front door.

"Tell that messenger to step out!" was the next command. There was no messenger aboard, but Wells, Fargo & Co.'s box was, as usual, there. They took the box, and one of the robbers stood the passengers up in a row and "went through them." One of the villains was half drunk, and abused the passengers by striking them with his pistol. The women say they know all of the parties and gave their names. The passengers fortunately had very little money, and it is not known how much the box held. Dr. Waggoner hopes to have the pleasure of appearing against the villains in Court. The names given by the girls for their quadrae acquaintances are names well known in Belleville.

THEATER TO-NIGHT.

The Alvin Joslin Company will appear at the Nevada Theater this evening, and will no doubt have a crowded house. The Milwaukee Sentinel said of a recent performance in that city: At the Academy of music last evening, the first representation of "Alvin Joslin" attracted a large audience. The play is light comedy throughout, and is very funny. The story consists of a delineation of the experiences of a Vermont farmer, who visits New York and trusts blindly to his impulses in solving the problems that come before him. The incidents and combinations of the scenes are very good, and if at times they seem rather exaggerated, the facts distract nothing from their humor. Mr. Davis, as Alvin Joslin, kept the house in convulsions of laughter most of the time, and when the curtain fell at the close of the first act he was called before the curtain repeatedly. Joe Bayler took perfectly the part of a Bowery rat, young in years, but old in experience, and his sang was invariably the signal for laughter in the galleries. The character of Julia Ford, whose misery furnishes most of the pathos of the story, is well conceived by Miss Burnett. The company is a strong one, and the comedy as full of blunders as it is possible to have it.

ROUGH ON THE BOYS.

The Ward Reflex says they had a little game of draw at the surveyor's camp near Cherry creek the other day and the negro cook took a hand. He also took the disputed "pot," and then the row began. The negro beat one man in the stomach and then hid in a tent. They hunted him out of that, but were no doubt sorry they found him, as he ran the blockade by doing some scientific hunting, seeing that one of his opponents was armed with a knife and the other with an ax. One man got it in the mouth and another in the stomach, and the negro made for the woods. His mode of fighting was a revelation to the boys. After getting so hungry the next morning that they would rather eat than fight, the cook was permitted to return to the camp.

RAPHAEL'S KITCHES.

M. Raphael says that work is being pushed vigorously in the mines at Dowdell, N.Y. Co. In the Western a fine ore body of unknown extent has been encountered. At the time Raphael left there (Thursday) a drift had been run into it sixty feet, and cross-cuts show that it is from twelve to twenty feet in width; how far down or above it extends is not yet known. A new engine, with sufficient power to run the blower and a stamp mill, will be put up at the furnace. The drift from the bottom of the main shaft is passing through very favorable formation, and ore may be struck at any moment.

COMSTOCK NECESSARIES.

The Doctor—You must at once give up using whisky, wine, beer—any kind of intoxicating drink.

PATIENT—WHAT!

Doctor—Yes, and tobacco.

Patient—Good heavens! Then you reduce me to living solely on the luxuries of life! Well, I suppose I must submit.—Chronicle.

20, 22, 24, 26, 28.

The above array of figures shows the tricks which the thermometer has been up to, or rather down to, to-day. 20 was a very low trick. At Nasby's Bazaar you can buy out glass inkstands. Something new and handsome.

RETURNED.

Dr. F. R. Waggoner has returned from his visit to the borax regions of Emeralds county, and can be found at his office in Sunderland's building by those desiring to consult him.

TAKE NOTICE.

GAZETTE subscribers desiring a paper box, or who wish their old ones repaired, will please notify one of my carriers. New boxes will be ready this week.

E. A. ALLEN.
